

## **AUTHOR'S GUIDELINES**

**International Journal of Pharmaceutical Sciences and Drug Research (IJPSDR)** is a bimonthly, international published online Journal devoted to Pharmaceutical and allied Sciences. IJPSDR publishes innovative research papers, reviews, mini-reviews, short communications and notes either experimental or theoretical in the following area

- Pharmaceutical Technology
- Pharmaceutics
- Biopharmaceutics
- Pharmacokinetics
- Pharmaceutical/Medicinal Chemistry
- Computational Chemistry
- Molecular Drug Design
- Pharmacognosy
- Phytochemistry
- Pharmacology
- Pharmaceutical Analysis
- Pharmacy Practice
- Clinical and Hospital Pharmacy
- Cell Biology
- Genomics and Proteomics
- Pharmacogenomics
- Bioinformatics
- Biotechnology

All manuscripts are subject to rapid peer review. Those of high quality (not previously published and not under consideration for publication in another journal) will be published without delay.

### **Preparation of Manuscripts**

#### **Research Papers**

The language of the journal is English. Each manuscript should be typed double-spaced on A4 (8.5" × 11") paper size with 1 inch margins. It should be arranged in the following order: Title, Abstract, Keywords, Introduction, Materials and Methods, Results, Discussion, Acknowledgement, References.

**Title Page-** Title page should contain title of the paper in bold face, title case (font size 14), names of the authors in normal face, upper case (font size 12) followed by the address in

normal face lower case. The author to whom all correspondence be addressed should be denoted by an asterisk mark. The title should be as short as possible and precisely indicate the nature of the work in the communication. Names of the authors should appear as initials followed by surnames. At the bottom left corner of the title page, please mention “\*Address For correspondence” and provide a functional e-mail address. Address of the corresponding author to whom all correspondence may be sent should be given only if it is different from the address already given under authors’ names.

**Abstract-** Should start on a new page after the title page and should be typed in single-space to distinguish it from the Introduction. Abstracts should briefly reflect all aspects of the study, as most databases list mainly abstracts.

**Key-words-** Provide four to six appropriate key words after abstract.

**Introduction-** Shall start immediately after the Abstract, as the next paragraph, but should be typed in double-space. The Introduction should lead the reader to the importance of the study; tie-up published literature with the aims of the study and clearly states the rationale behind the investigation.

**Materials and Methods-** Shall start as a continuation to introduction on the same page. All important materials used along with their source shall be mentioned. The main methods used shall be briefly described, citing references. Trivial details may be avoided. New methods or substantially modified methods may be described in sufficient detail. The statistical method and the level of significance chosen shall be clearly stated. IJPSDR prefers to publish work that has been subjected to an appropriate statistical test at one level of significance.

**Results-** All findings presented in tabular or graphical form shall be described in this section. The data should be statistically analyzed and the level of significance stated. Data that is not statistically significant need only to be mentioned in the text - no illustration is necessary. All Tables and figures must have a title or caption and a legend to make them self-explanatory. Results section shall start after materials and methods section on the same page.

**Discussion-** This section should follow results, deal with the interpretation of results, convey how they help increase current understanding of the problem and should be logical. Unsupported hypothesis should be avoided. The Discussion should state the possibilities the results uncover, that need to be further explored. There is no need to include another title such as “Conclusions” at the end of Discussion. Results and discussion of results can also be combined under one section, Results and Discussion.

**Acknowledgements-** Should be given after the text and not in the form of foot-notes.

**References**

-

Should be numbered consecutively in the order in which they are first mentioned in the text (not in alphabetic order). Identify references in text, tables, and legends by Arabic numerals in superscript in square brackets. References cited only in tables or figure legends should be numbered in accordance with the sequence established by the first identification in the text of the particular table or figure.

**Journal Articles:** Gaur K, Kori ML, Tyagi LK, Singh V, Nema RK, Tripathi P. Licofelone- Novel Analgesic and Anti-Inflammatory Agent for Osteoarthritis: An Overview. *J Young Pharm.* 2009; 1:67-71.

**A Book:** Durbin R, Eddy SR, Krogh A, Mitchison G. *Biological Sequence Analysis: Probabilistic Models of Proteins and Nucleic Acids.* Cambridge University Press, 1999.

**A Chapter in a Book:** Nadkarni KM. *Indian Materia Medica.* Edn 3, Vol. I, Popular Prakashan, Mumbai, 2000, pp. 242-246.

**A Report:** Makarewicz JC, Lewis T, Bertram P. Epilimnetic phytoplankton and zooplankton biomass and species composition in Lake Michigan, 1983-1992. U.S. EPA Great Lakes National Program, Chicago, 1995, IL. EPA 905-R-95-009.

**Conference Proceedings:** Stock A, Signal Transduction in Bacteria. In the Proceedings of the 2004 Markey Scholars Conference, 2004, pp. 80-89.

**A Thesis:** Strunk, JL. The extraction of mercury from sediment and the geochemical partitioning of mercury in sediments from Lake Superior, M. S. thesis, Michigan State Univ., East Lansing, MI, 1991.

**Illustrations: Tables-** Should be typed on separate sheets of paper and should not preferably contain any molecular structures. Only MS word table format should be used for preparing tables. Tables should show lines separating columns but not those separating rows except for the top row that shows column captions. Tables should be numbered consecutively in Arabic numerals and bear a brief title in capital letters normal face. Tables should not be very large that they run more than one A4 sized page.

**Figures -** Should be on separate pages but not inserted with in the text. Figures should be numbered consecutively in Arabic numerals and bear a brief title in lower case bold face letters below the figure. Graphs and bar graphs should preferably be prepared using Microsoft Excel and submitted as Excel graph pasted in Word.

**Abbreviations, Units Etc -**

Authors should follow internationally agreed rules especially those adopted by the IUPAC-IUB Commission on Biochemical Nomenclature (CBN). The journal will essentially follow the rules defined in the IUPAC Manual of symbols and terminology for physico-chemical

quantities and units. Standard abbreviations should be used throughout the manuscript. All nonstandard abbreviations should be kept to a minimum and must be defined in the text following their first use.

### **Short Communications:**

The journal publishes exciting findings, preliminary data or studies that did not yield enough information to make a full paper as short communications. These have the same format requirements as full papers but are only up to 10 pages in length in total. Short Communications should not have subtitles such as Introduction, Materials and Methods, Results and Discussion- all these have to be merged into the running text. Short Communications preferably should have only 3-4 illustrations.

### **Review Articles**

Should be about 15-30 pages long, contain up-to-date information, comprehensively cover relevant literature and preferably be written by scientists who have in-depth knowledge on the topic. All format requirements are same as those applicable to full papers. Review articles need not be divided into sections such as materials and Methods and Results and Discussion, but should definitely have an Abstract and Introduction, if necessary.

### **Ethical Approvals (if applicable)**

#### ***Patient Rights***

Patients have a right to privacy thus; all the studies should be conducted with informed consent. No identifying information should be published in written descriptions, photographs, and pedigrees unless the information is essential for scientific purposes and the patient (or parent or guardian) gives written informed consent for publication. When informed consent has been obtained, it should be indicated in the article. Investigations with human subjects must follow the ethical standards formulated in the Helsinki Declaration of 1964, revised in 2000. All the experiment should be approved by the institutional human experimentation committee or equivalent.

#### ***Animal Rights***

Animal experiments must follow the ethical standards for the care and use of laboratory animals. Article involved the animal experiments must seek approval from the appropriate Ethical Committee in accordance with "Principles of Laboratory Animal Care" (NIH publication no. 85-23, revised 1985).

### **Conflict of interest**

All the authors of must disclose the possible conflicts of interest/ Competing Interests they may have with publication of the manuscript or an institution or product that is mentioned in

the manuscript and/or is important to the outcome of the study presented. Authors should also disclose conflict of interest with products that compete with those mentioned in their manuscript. The Conflict of Interest statement should list each author separately by name.

### **Submission of Manuscript**

All manuscripts (must be in English and in MS Word format) and should be submitted via our online system or through e-mail editorijpsdr@gmail.com as an attachment for quick evaluation.

### **Copyright and Permissions**

Submission is a representation that the manuscript has not been published previously and is not under consideration for publication elsewhere. Authors would be required to sign a form (to be supplied by the Editor) transferring copyright before the manuscript can be published. By submitting a manuscript to the editor or publisher you are deemed to have granted permission to publish the manuscript.

### **Galley Proofs**

Proofs will be sent via e-mail as an Acrobat PDF (Portable Document Format) file. Acrobat Reader will be required in order to read the PDF.

### **Article Publication Charges**

There is no charge for the processing of papers but author(s) of each accepted paper is required to pay a publication charge of **INR 2000 (US\$120.00)** before the accepted paper is published.
